

Software and Business Analyst

Why YOU should join Traveler Buddy?

As a team member, you are involved from start-to-end in the development and the enhancement of TravelerBuddy solution, so it's never boring. Being a big fish in a small pond allows you to learn a lot, develop, perform, and shine. We value a proactive mentality. If you can dream it – you can do it. We are here to support you. What our talents appreciate most is having a high degree of control and freedom within their job. You will have the necessary autonomy because we want to keep innovating our product.

You will work both in a multi-cultural, international team and as well as independently, by using best-in-class platforms. At TravelerBuddy, we believe in flexible working time – what counts for us most is that the work is done in the best quality and on time. We are convinced that you know best how to organize your working day. Like is, if you believe in lifetime learning, then you are the right place. We coach you on the job and give you access to leading digital learning solutions.

So, who is Traveler Buddy, the tech company who aspires to become the leading digital travel assistant? Traveler Buddy is an innovative, client-centric travel-tech company with roots in Switzerland and Singapore. For four years, we have been growing our team in Southeast Asia.

Using the latest technology allows us to combine humans with artificial intelligence. Developed by travel enthusiasts, Traveler Buddy has been attracting users in over 150 countries.

If you aspire to shape the travel tech industry, then we should have a chat soon.
